

Heritage Construction: Groundbreaking

February 5, 2019

The Small Business Administration (SBA) has awarded the Heritage Construction with 8(a) certification status for a period of nine years. Designed to assist small, woman, or minority-owned businesses compete with larger and more established enterprises; SBA 8(a) program participation will give Heritage Construction greater access to the federal procurement market. Owned by Hyder Bhatti, HC is a performance-driven contractor that manages and delivers projects on time and within budget. HC serves the federal government, tribal governments, and corporate clients throughout the United States.

“Our company is the first construction company to be awarded SBA 8(a) certification in since 2017,” said Bhatti. “Participation in the SBA 8(a) program is the next logical step for Heritage Construction and has already taken advantage of the opportunities the certification allows and is hitting the ground running in efforts to obtain more work and create additional revenue streams.

The 8(a) Business Development Program is a business assistance program for small disadvantaged businesses. The 8(a) Program offers a broad scope of assistance to firms that are owned and controlled at least 51% by socially and economically disadvantaged individuals and is an essential instrument for helping socially and economically disadvantaged entrepreneurs gain access to the economic mainstream of American society.

HC is headquartered in Meridian, MS and is a leader in the construction industry, providing general contracting, construction management, environmental consulting, and remediation services.
